Re agenda item 5:

Novo Nordisk A/S is aiming at composing a Board of Directors consisting of persons who have such knowledge and experience that the collective Board of Directors can attend to the interests of the Company and thus the interests of the shareholders with due respect to other stakeholders of the Company in the best possible way. When identifying and selecting suitable candidates for the Board of Directors, diversity is also considered. The Board of Directors actively contributes to developing the Company as a globally operating, focused pharmaceutical company, and supervises the management in its decisions and operations.

Please see the Company's website novonordisk.com under 'About Novo Nordisk' → 'Corporate governance' for a more detailed description of the competence criteria of the Board of Directors.

All board members are to be elected or re-elected each year. Thus each board member's term expires in 2010. The Board of Directors proposes re-election of all current board members elected by the Annual General Meeting: Sten Scheibye, Göran A Ando, Henrik Gürtler, Pamela J Kirby, Kurt Anker Nielsen, Hannu Ryöppönen and Jørgen Wedel.

It is the assessment of the Board of Directors that the proposed composition of the Board of Directors complies with the above-mentioned criteria. More specifically, in relation to diversity of the Board of Directors, it is the assessment of the Board of Directors that the current composition is appropriate.

In addition to their professional qualifications, the proposed candidates possess significant experience from the management of international pharmaceutical and high-technology companies, and together they have the knowledge and the professional and international experience which are competences important to the work of the Board of Directors.

In the Danish Corporate Governance Recommendations (2008), it is recommended that at least half of the board members elected by the Annual General Meeting shall be independent of the Company. Mr Nielsen and Mr Gürtler were chief financial officer and corporate executive vice president, respectively, with special responsibility for Corporate Staffs of Novo Nordisk A/S, prior to the demerger into Novo Nordisk A/S and Novozymes A/S in 2000. Furthermore, Mr Nielsen, Mr Gürtler and Dr Ando hold executive or board positions in Novo A/S and the Novo Nordisk Foundation, respectively. If the proposed candidates are elected to the Board of Directors, the Board of Directors will satisfy the requirements of the Danish Corporate Governance Recommendations (2008) as four of the seven board members elected by the Annual General Meeting are independent of the Company according to the criteria of the Recommendations.

In addition, the proposed composition of the Board of Directors will enable the Board of Directors to elect members to the Audit Committee who qualify as independent and as financial experts as required and defined by the US Securities and Exchange Commission (SEC) as well as the Danish Act on Approved Auditors and Audit Firms.

The Board of Directors considers that the size of the Board is appropriate in relation to the requirements of the Company.

When each section in the new Danish Companies Act has come into force, the amendments to the Articles of Association (including the amendments concerning the record date) will be made effective at the same time. The Board of Directors shall soonest hereafter amend the Articles of Association accordingly, so that the provision(s) in the Articles of Association in question only state(s) the new provision(s). Re agenda item 7.2:

The Board of Directors proposes a reduction of the Company's B share capital from DKK 512,512,800 to DKK 492,512,800 by cancellation of part of the Company's portfolio of own B shares at a nominal value of DKK 20,000,000 divided into 20,000,000 B shares of DKK 1 each. After the implementation of the share capital reduction, the Company's share capital will amount to DKK 600,000,000, divided into A share capital of DKK 107,487,200 and B share capital of DKK 492,512,800.

The purpose of the reduction of the Company's share capital is to distribute funds to the shareholders as the reduction amount has been distributed to the shareholders in payment of shares purchased by the Company in accordance with the authorisations granted to the Board of Directors at previous general meetings. As a result, the share capital is reduced by nominally DKK 20,000,000 and the Company's portfolio of own shares is reduced by 20,000,000 B shares of DKK 1 each. These B shares were acquired for the

total sum of DKK 6,005,493,359.08, which means that in addition to the nominal amount of reduction, DKK 5,985,493,359.08 has been distributed to the shareholders.

The Board of Directors' proposal to reduce the Company's B share capital is made in order to maintain capital structure flexibility.

Adoption of the proposal implies the following change of Article 4.1 in the Articles of Association of the Company that will take effect upon completion of the capital reduction:

"4.1 The share capital of the Company amounts to DKK 600,000,000 divided into A share capital of DKK 107,487,200 and B share capital of DKK 492,512,800."

Re agenda item 7.3:

The Board of Directors proposes that the Annual General Meeting authorise the Board of Directors, until the next Annual General Meeting, to allow the Company to acquire own shares of up to 10% of the share capital and at the price quoted at the time of the purchase with a deviation of up to 10%.

The Board of Directors considers it to be good corporate governance and consistent with the Company's strategy for its share buy back-programmes, that the mandate to acquire own shares is limited in amount and approved by the Annual General Meeting on an annual basis.

Re agenda item 7.4:

In 2008 the Annual General Meeting approved the Incentive Guidelines concerning remuneration for the Board and Executive Management.

The current Incentive Guidelines contains reference to a long-term incentive programme consisting of a joint share bonus pool for participants which include the Senior Vice Presidents of Novo Nordisk Group. The revised proposal reflects the fact that not all Senior Vice Presidents of the Novo Nordisk Group (the Senior Management Board) are in the same joint share bonus pool as the Executive Management.

In addition the Board of Directors proposes to transfer the remuneration overview table to the Company's Remuneration Principles to enable a more operational handling of minor changes to, e.g.; Danish pension tax law. Finally, the Board of Directors proposes to change the reference to OMX in the Incentive Guidelines to "NASDAQ OMX Copenhagen" to reflect the new ownership.

Re agenda item 8:

The Board of Directors proposes that the general meeting authorises the chairman of the meeting to notify decisions adopted by the general meeting and which require notification to the Danish Commerce and Companies Agency and to make corrections in the documents which are drafted in connection with these decisions to the extent required by the Danish Commerce and Companies Agency in order to register the decisions.

To adopt the proposals to amend the Articles of Association under item 7.1 and the proposal to reduce the share capital under agenda item 7.2, at least two thirds of the total number of votes in the Company shall be present at the Annual General Meeting and at least two thirds of the votes cast as well as of the share

capital represented at the Annual General Meeting shall vote for the proposals, cf. Articles 10.2 and 10.3 of the Articles of Association. All other proposals may be adopted by a simple majority of votes cast. If at the time of the Annual General Meeting it has been made possible by way of regulation to adopt some of the proposals concerning the new Danish Companies Act with less majority and quorum requirement, this less majority and quorum requirement shall apply.
